

THE ORCHARDS FEDERATION
GOVERNING BODY

GOVERNOR PROFILE, 2015

Name: Champak Mistry

Type of Governor: Community

Why I chose to join the Governing Body:

As an elected councillor for Harper Green Ward I was appointed by the Council to be a governor at the Orchards Federation.

I have been a governor for the past six years.

I have three children all born in Farnworth. They all went to St. Mount Josephs. All went to universities and are graduates. One is medical engineer, one is a lecturer at Preston college and my son is director of our own printing company.

I am very passionate about child education and being at the Orchards I want to make sure that as a member of governing body team we get the best out all the children who attend the school.

At the Orchards we have a fine team of governors who share my views and educational professionals who work hard to make sure that education remains our key priority.

There are huge challenges ahead and I am a part of a team which hopefully well be steering the school to become one of best in my ward.

My particular skills and interests are:

I am Self Employed.

My expertise lies in marketing and communications.

I have managed large building projects.

I am now reaching my retiring age and my interest lies in working with people of 50 plus and I have five grandchildren. Their education is important to me, so I want continue to be involved in schools.
